inspire confidence • build prestige
with S. S. WHITE EQUIPMENT

Your prestige—and your patients' confidence! That's the practice-building idea of the S. S. White Master Unit D-2 and Motor Chair. The unit's accessories are always readily at reach to reduce fatigue. The chair is automatically adjustable to accommodate patients of all sizes. Both are designed for the maximum convenience and space saving. Styling is clean, simple and distinctively modern. We'll gladly demonstrate this equipment for you.

JECTRON

*the pre-cured
polystyrene denture that*

preserves impression accuracy

GIVES YOU THE KEY TO LASTING RETENTION!

The tissue-side of a Jectron denture is an accurate reproduction of your impression. That's why a Jectron denture hugs tissues and won't be dislodged . . . maintains bite relationships . . . keeps tissues healthy, and patients happy.

The precise fit of a Jectron denture is achieved through exclusive Trans-injection molding. The flask is closed and locked in the Trans-injection machine, after which the material is forced through an aperture to completely fill the mold in one ten-second, automatic operation. The material must follow the exact contours of the casts, cannot raise bites or move teeth.

But, molding accuracy is just the beginning of the Jectron list of advantages for you. Most important is the fact that Jectron retention lasts! Many doctors tell us that they have never had to rebase a Jectron denture, with some dentures in continuous mouth service for more than two years! Reason: Jectron is a specially compounded pre-cured polystyrene resin that guarantees stability of form. Jectron is not subject to curing shrinkage, warpage or water-swelling. The fit originated by your impression does not suffer progressive deterioration. Retention is preserved indefinitely.

Jectron's lasting retention will give you release from the countless hours of chair-time you now spend tediously correcting problems of occlusion and retention . . . And the Jectron denture as constructed by the qualified craftsmen of your Jectron laboratory, will help you to build your reputation for denture excellence through an ever-increasing number of comfortable enthusiastic patients.

LOW-HEAT — A low-melting alloy electrically cast into a relatively cool mold produces fine-grains in the structure of the final casting.

TICONIUM CASES FIT —

Plaster-bound investment, hydrocolloid impression material and a rigidly controlled technique produce fine-grain, accurate cases.

SOLDERABILITY — Work is handled easier; cases can be re-finished better; warpage of original casting is minimized.

STRONGER CLASPS —

Ticonium clasps have better adjustment and longer life.

BETTER PHYSICAL PROPERTIES — Tests prove the greater resiliency of fine-grain, low-heat Ticonium.

ELECTRIC MELTING —

Ticonium is melted uniformly. The human element is minimized by use of an electric casting machine.

PRESCRIBED FOR SURGERY — Ticonium #25 has been tested and used successfully in surgery for many years.

Volume 29 • Number 3

Our Monday Night Speaker

Senator William F. Knowland

It is always the intent of the planners of the Midwinter Meeting to present those things in dentistry that are of a vital and valuable nature to dentists and that they can actually use in serving their patients. Similar thinking dictates the basis for selecting speakers who come to us from outside the dental field. We aim to present men who are a vital part of our country's life, be it political, economic, religious or any other. Senator Knowland answers these criteria most admirably.

He occupies a unique position in Washington. He has been elected by his fellow Republican senators as their Leader—still he disagrees radically with Eisenhower on some basic policies and the President is the head of the Republican Party! It amounts to a clear delineation between the middle-of-the-road Republicans and the most conservative elements in the party and means that for two years now Eisenhower will face a form of loyal opposition within his own ranks and a battle in the 1956 convention unless the breach is closed.

So far during the Eisenhower administration Senator Knowland has gone along with the White House but in the recent special session he differed openly on two important issues, namely, policy toward Red China and toward the cen-

sure of Senator Joe McCarthy. In China Knowland stated that he was in favor of a blockade to force the release of American prisoners. The President said he felt that this would be an act of war and opposed the suggestion very definitely. In the McCarthy affair Knowland headed the group that opposed censure although he had appointed the Watkins committee.

Both of these differences of opinion can be ironed out should Senator Knowland wish to adopt a working compromise basis with the White House for the balance of the first Eisenhower term but if he is going to head the conservative Republicans and the President wishes to direct the Republican Party along more moderate, progressive lines he is going to have to give a lot of ground which he may be loath to do. On the other hand although the position of the President is capable of considerable annoyance from small attacks it is politically unassailable so with all Knowland's popularity in the Congress which will continue him as Republican Leader he may choose to bridge the gap and keep it bridged.

The deciding factor is the 1956 Republican Convention. Eisenhower will be all but unbeatable for the nomination and anyone he hand-picked as his succes-

(Continued on page 27)

California and a Hawaiian Holiday

The American Dental Association Annual Session, at San Francisco, October 17 to 20, offers a splendid opportunity to combine a trip to the Meeting with the family vacation. Dr. B. Placek, our Transportation Chairman, advises that arrangements have been completed for an outstanding train travel trip to California on the "most talked about train in America," the California Zephyr. Also, a fun packed post-convention trip visiting Yosemite National Park, Southern California, and the Grand Canyon ties in with this transcontinental trip.

The Hawaiian Holiday begins when the Convention ends, and Dr. Placek will conduct this glamorous tour to Hawaii. He points out there is good economy in time and money to make your Hawaiian travel dream come true this year when our journey to San Francisco brings us so close to the Islands.

Here is a brief outline of both the California train trip and the Hawaiian Holiday:

On the California trip, a cross section of desirable Pullman space has been reserved aboard the new stainless steel California Zephyr, from Chicago, on October 10, for those who wish to attend pre-convention section meetings, and similar block reservations for departure from Chicago, October 13 and October 14.

Regardless of the date you may leave Chicago, the California Zephyr route offers you one full day of magnificent scenery in the Colorado Rockies to be enjoyed at its best from the vantage point of the Vista Domes, and the morning of the day of arrival is spent following the banks of the Feather River Canyon, the site of the California Gold Rush.

The Post-Convention trip from San Francisco, October 20, brings the group in a few hours to one of California's most majestic showplaces, the breathtaking Yosemite Valley. Here they stay overnight at the smart Ahwahnee Hotel, thence to

Los Angeles and the spacious Ambassador Hotel for a three-day visit. Motor sightseeing, of course, and one night a dinner dance at the famous Cocoanut Grove, rendezvous of the movie stars. Returning to Chicago a full day will be spent at the colorful Grand Canyon of Arizona.

A descriptive pamphlet explaining this trip in detail and giving a day-by-day schedule, as well as all costs, may be secured by writing Dr. Placek.

The Hawaiian Holiday gets off to a flying start via Pan American World Airways, the night the Annual Session closes, and in the early morning the party glides gently into the Honolulu Airport. Here, in this tropical setting, where nature blends sunshine and trade winds into a near perfect climate, we spend eleven zestful days at the magnificent Royal Hawaiian Hotel on lovely Waikiki Beach. During our stay at this crossroads of the Pacific we visit Mt. Tantalus and on another day motor through the cane and pineapple country to the far ends of the island of Oahu. Plenty of time to enjoy this luxurious version of tropical living and you may visit the other exotic islands in the group if you so desire, all are within two air hours of Honolulu. The highlight of the trip is the homebound voyage on the palatial *Lurline*, a ship that has anticipated the every desire of the traveler. Aboard, a movie theatre, night club, lounge for musicals and teas, a cocktail lounge, card room, library, enhance the fleeting hours.

Both the California Train and Post Convention Trip, and the Hawaiian Holiday are expressly for our members, families, and friends, and other dentists traveling by way of Chicago are cordially invited to join our Chicago Dental Society Travel Party.

For full information on the California Trip and Hawaii, write: Dr. B. Placek, Transportation Manager, 1545 W. Division St., Chicago 22, Illinois.

NEWS AND ANNOUNCEMENTS

WEST SIDE BRANCH MARCH MEETING

The West Side Branch of the Chicago Dental Society will present Part V in its course of lectures in Full Denture Prosthesis on Tuesday, March 8th, at the Midwest Hotel, 6 N. Hamlin Avenue, with dinner at 7:00, the business meeting at 8:00, and the scientific session at 8:30. "Management of Post-Delivery Problems" by Dr. Rudolph O. Schlosser will be featured.

LOYOLA CLASS OF 1934 REUNION DINNER

The second annual reunion of the Class of 1934 of Loyola University School of Dentistry will be held at Armando's Restaurant, Rush & Superior Sts., with dinner at 6:30 p.m. For reservations, call Dr. Henry L. Boris at AVenue 3-2250 or Dr. Benj. L. Wexler at FInancial 6-5097.

C.D.A.A. NEWS

Illinois State and Chicago area dental assistants have a full five-day program scheduled for them during the

Chicago Dental Society's annual Midwinter Meeting. Gladys Triphahn, the Certification Chairman, is proud to announce that the third Extension Course Examination for Certification is scheduled for Saturday, February 5, at 10:30 a.m. at the Northwestern University Dental School, 311 E. Chicago Ave. Twenty-three assistants have completed the course and are eligible to take the examination. Lorraine Scapillato, C.D.A.A. president, extends a cordial invitation to all members to attend the I.S.D.A.A. session which opens February 5 at 3 p.m. with a House of Delegates meeting to be followed by a program. Jeanne Ostermeier, I.S.D.A.A. vice-president, has planned a delightful luncheon for 12 noon on Feb. 6, dining room 1, Hilton Hotel, in honor of the State president Marjorie Fowler. Reservations are \$3.50 per plate, please send your remittance to Jeanne at 1013 Curtiss, Downers Grove, Ill.

Grace Dymmer, Vice-president and Social chairman for C.D.A.A. has a wonderful evening in store for us on Sunday the 6th. It's a dinner dance at the Columbia Yacht Club. Cocktails at 7 p.m.

(Continued on page 26)

LOYAL LOYOLIANS, ATTENTION!

The Alumni of Loyola University School of Dentistry will hold their fourth annual cocktail party during the Midwinter Meeting, Tuesday, February 8, 4:30 to 7:00 p.m.

Werner J. Gresens, Pres.-Elect

NEWS OF THE BRANCHES

SOUTH SUBURBAN

WE WAS ROBBED. That should be the cry of more of the dentists in the Chicago area in view of the fact that in the past five years the number of illegal dental laboratories has increased from 20 to 125. The speakers for our January meeting brought out this fact and a number of other facts on the amount of business that we are losing to these mostly untrained and incompetent men who are making prosthetic appliances in basements and other out-of-the-way places for patients. Drs. Wenger and Brophy have given unselfishly of their time to help to eliminate the illegal labs, but one of the most glaring weaknesses in the chain of their efforts has been the lack of cooperation of the law enforcement agencies—namely, the State's Attorney's office. To those who are interested, and there should be more men who should realize what they are losing and will continue to lose, you should make your feelings known to all the political agencies from Governor Stratton on down. Now is the time to get on the ball and do something positive about this, don't let the other guy do all the work as we have up until now. . . . Got a very nice note from Dr. Thomas Grady of the Elgin State Hospital to the effect that Dr. Bernhard Mann, Chief of the Dental Service, has retired after seventeen years in the state service. Doctor is the brother of Dr. Max Mann of Blue Island, and may be associated with him on a part time basis after a well deserved rest and possibly a trip to Europe. . . . Dr. Alva Craver, Sr., formerly of South Suburban, is now in a rest home in the South and is kind of lonesome. He is interested in hearing from some of the gang. You can reach him at the Henry Binns Hotel in Albany, Georgia. . . . A. W. Broostra is visiting out East, but plans to be back for the Midwinter Meeting. . . . Down south in Florida are Dan Altier and O. A. Taylor

Bell for some golf, fishing, and plain relaxation. . . . Leonard Holt is planning on a six-week stay in his home in Winter Haven, Florida, but is making definite plans to be back for the State meeting in May. To some of you folks in Harvey wondering who is swooping around in that new red station wagon, it is none other than our boy Vance Phillips. . . . Overheard a conversation of Dr. Winiecke of Hazelcrest. He is planning to go to Turkey in August as a member of the International Health Congress. At the present time he is waiting for his appointment to the group by UNESCO. Dr. Winiecke has already been to Europe and Mexico as a representative of the group. . . . I guess that sales resistance is at its lowest ebb around the Holidays. Sid Bayer brought his Chevy in to have it greased and the oil changed and some of the super salesmen got hold of him and before he could say "second bicuspid," he had purchased a new Buick. . . . Travel abroad is really enlightening. Henry Cubbon, a recent returnee from Europe as a member of the armed forces, was relating the beauties of the Bavarian Alps and Austria. To see him go into raptures whilst relating same is worth the price of admission alone. . . . That's all for now, see you all at the Conrad Hilton during the Midwinter Meeting.—*H. C. Gornstein, Branch Correspondent.*

WEST SUBURBAN

The main item of interest for the month is the roster of nominations for the offices of the Branch. This roster is presented to the members of the Branch so that all may study it and be ready to vote at the proper time. President, Richard Anderson; President-elect, Edward Kritzke; Vice-president, Wallace Kirby; Secretary, Howard Buchner; Treasurer, Olaf Opdahl; Librarian, Joseph Brophy; Director to the Chicago

Dental Society, Clarence Hanson. . . . When the members receive this copy all will be getting ready to go to the Midwinter Meeting and see all their old friends. One of the best ways to do this is to go to the meetings of the different organizations that one belongs to, such as the University of Illinois Alumni Association which is having a luncheon on February 9 or the Northwestern University Alumni Association which will also have a luncheon on February 9. A good chance to meet old pals! And, the Alumni Association of Loyola University is planning a cocktail party for February 8th in the West Ballroom, it will begin at 4:30 and begin to stop at 6:30. The Loyola Alumni Association will hold open house all throughout the Midwinter Meeting in Room 512-A. . . . While attending all these meetings, the lectures, and display booths, you will pick up information of interest, so why not pass it on to me for the *FORTNIGHTLY*? —*Bob Randolph, Branch Correspondent.*

ENGLEWOOD

Ah yes, I am feeling veddy lightheaded right now—just visited the local clip joint (barber shop to you) and weighed in right after to see how much I had lost. Got a card stating how much I was worth on the hoof at 65c a pound, and on t'other side it sed, "You are a leader of men, with a magnetic personality and strong character. You are intelligent, witty, colorful, charming, and attractive to the opposite sex." It had my weight wrong too. . . . Pablo Kanchier spent three weeks in Florida from the middle of December on. On what, Paul? Ma and Pa and the Kanchier childs left together, but the kids came home all by their little selfs, leaving their doting parents behind for a few more days of sun and fun. . . . "Prof." and Mrs. Sorley also took in the Florida scene for some three or four weeks. He came back with a king size sunburn—in fact, the "Prof." is so red he's being investigated. . . . ONLY 346 days before Christmas, and don't think that Elmer Ziemer

don't know it, 'cuz he has already picked up over two hundred dollars worth of electric train stuff for Li'l Bruce's *next* Christmas. . . . Sure an' 'tis a "full house" for the Ed Scanlans—three queens and a pair of kings. A fine little fella came to live with them on December 8th, 1954, and we congratulate Ed and Marg on the new baby. Come to think of it, who ever heard of an *old* baby? . . . We have been told that Reuben Anderson has been hospitalized for a repair job. . . . Hey, wanna good deal in a used car? Well, my informant (who will have to resign his post on the *FORTNIGHTLY REVIEW* if his I-dentity is learned) sez that you should stake yourself out in front of 636 Church St., Evanston, and follow Fred Verink when he takes off in a cloud of dust for the local Buick agency—object, trade-in. Now it seems as how this here Verink individual takes *such* good care of his yeller Buick, "George," that he will not let anyone even wash it (or him, as the case may be), and went so far as to refuse to take George out one night recently when attending a party. Nope, Fred took a cab from Evanston to Glenview, *and had the cab wait for him!* . . . To Robert and Durwood Hattendorf we extend our heartfelt sympathy on the death of their mother who passed away on December 30th. . . . One of our newest members, Dr. Thomas J. Starshak, was married to Barbara McGoorty on December 27th. I believe that the nicest wish we could have for you, Dr. Tom Jr., would be that you should have as good a life as has had your father, and that you might be as wonderful a father to your children as your dad has been to you. Pop has mighty big shoes! And remember, Tom, a man is supposed to quit horsing around when he becomes a groom. . . . Leave us not miss mention of the fact that Old Timers' Night came to Engulwood on December 14th. The Old Futzers enrolled were: Don Reynolds, Jack Thompson, Al Tanis, George Lingen, Fred Sielaff, Ed Gutmann, and John Quinn. Wow! It took four 'phone calls to get the complete list! Yep, I'm Engulwood's "late" reporter. President

Kleiman, Lon Morrey, and Milt Cruse were present to give our party a "special" touch, and we were happy to see them. Harry Kazen made a swell dean, dinty? Harry came down with the flu shortly thereafter, but I do not see any connection between the two events. . . . Ira and Mrs. Medsker spent Christmas and New Year's visiting their two daughters in Norfolk, Va. From there they went on to Williamsport, Pa. to see Mrs. Medsker's brother. . . . **MEET—GREET—BLEAT:** The Alumni Association of the Loyola University School of Dentistry, Chicago College of Dental Surgery, will again hold open house in room 512-A of the Conrad Hilton Hotel during the Midwinter Meeting. Don't miss this opportunity to impress your schoolmates with your great success and prosperity. Also, on February 8th, the alumni will have a second shake at finishing the Great Story at the Cocktail Party to be

given in what was the West Ballroom. Time, 4:30 to 6:30, if the likker holds out. . . . Thanks to Ross E. Waltzer of Tulsa and to Fred Halik of Rochester for their kind letters. Be seein' you kids at the Big Show. . . . Mal Brooks appeared on the Dental Clinic TV program on Dec. 8th. Mal showed and talked about partial denture and removable bridge cases. H'ray for our side! . . . A letter from William H. Benson, dated 12/2/54, is sadly old to mention at this time, but I do not want the good doctor to think that I tossed it aside—it was scheduled to appear in the last issue. Dr. and Mrs. Benson have been ill and have been confined to the Methodist Hospital, Mayo Clinic. We sincerely hope that both are quite well now, and we join Dr. Benson in his hope to be with us soon. He closes with, "Please remember me to the fellows . . . , particularly

the N.U.D.S. men of around '23 which was my class." . . . I'm watching with one eye (my good one), and listening with one ear to the Zoo Parade program while I'm tapping this stuff out to you, and I have just caught Mr. Perkins saying something about ". . . has big ears, small eyes, pug nose, bow legs, short, fat, and has a valuable coat." SIR! Youse are talking about the woman I love!—*The Pied Typer of Ramblin', Branch Despondent, Local 602.*

NORTH SIDE

Now that we have just recovered from all the social activities of the holiday season, we jump right in without a breather, into the main event of the winter, our big Midwinter Meeting. Many of our North Side Branch members are taking part in the various clinics both limited or general. . . . Loyola Alumni, attention! On Feb. 8th in the West Ballroom of the Hilton, there will be a cocktail party from 4:30 to 6 p.m. . . . The men who attended the G. Archanna Morrison course, at the North Side Clinic day should be interested in this announcement. Her explanatory sheets that she mentioned in her talks are available to you if you will just send a self-addressed envelope to Dr. R. E. Kadens, 1103 Bryn Mawr, or see him during the Midwinter Meeting in the Stimulator Hospitality room. These sheets are *gratis* as she mentioned. . . . We are certainly sorry to see Chicago lose an excellent orthodontist to California. Ernie Myer is leaving us very shortly for the land of smog and plenty. Good luck, Ernie! Harold Stackler will take over his practice. . . . Leon Rosenfeld has associated with Ben Krohn and he writes that they are very proud of their recently remodeled new quarters and invitations are open for all to see what they have accomplished. . . . I am sure all members of the North Side branch join in sending sympathy to Hal Sitron on the loss of his mother. . . . Walter Christiansen was in Toronto, Canada,

for the wedding of his son on Jan. 15th. . . . Joe Ambrose is back from California looking fine as usual. . . . Morrie Gerry was guest speaker at the Academy of Psychosomatic Medicine. . . . Stanley Goldberg and LeRoy Levey are planning to attend the Orthodontic meeting in Louisville. . . . B. R. Allen recently came back from Oklahoma City to acquire another granddaughter. Hey, you young fellas, all I write about is us old folks, what about you who are about to be married or have kids? Which reminds me, Bill Semiloff is moving into a village which before long should be called "Toothacres" since so many dentists live there now. Of course, he bought a house and the village is Lincolnwood. . . . Joe Stillerman would like to know if anyone else with a '55 Pontiac gets more than 8 miles to the gallon. I think you got a "Lemon," Joe. . . . R. W. Lee just back from South America with loads of colored slides of that gorgeous continent. . . . The third telephone course which the Uptown Forum sponsors will be Feb. 11th at the Town House. . . . See you at the Midwinter Meeting.—*Joseph W. Gordon, Branch Correspondent.*

WEST SIDE

Hi!—Since Frank Kropik, our industrious Branch Correspondent, is a very busy man these days, spear-heading the March of Dimes campaign in Berwyn and surrounding villages, he invited us to guest this issue. We are always very proud of our colleagues who take an active part in civic affairs. Consequently we are very happy to oblige. . . . Al Sells and his beloved celebrated their silver wedding anniversary for three delightful weeks in the land of sunshine. Now Al is enthusiastically sounding off like the Mexico Bureau tourista. While in Mexico City, Al became an ardent devotee of the great Mexican national sport. He was particularly entranced by the gay, colorful bespangled costumes of the bull fighters. But those fancy hats and tight

sor would be almost as strong. A lot of gossiping is based on the theory that the McCarthy faction might profit from the warmth shown by Knowland in the censure matter and unite to form a third party. This third party would have perforce to be a melange of all the factions opposing Eisenhower and would lack any central driving power of its own. The best political observers regard such an effort as doomed to failure.

We will draw no conclusions from the above impressions except the very pertinent one that Senator Knowland is a crucial and controversial figure in Washington today and in the immediate future of our country. It is this type of person that the people at our Midwinter Meeting are interested in meeting and knowing and hearing. Plan now to be in the Grand Ballroom on Monday night, February seventh.

NEWS OF THE BRANCHES

(Continued from page 18)

pants did something to him for now Alvin wants to be a toreador! Well, he should do O.K. After all, he always has been par-excellent at throwing the bull. Ole!!! . . . Woe is unto Art Tessler. Some months back an auto threw his boxer dog for a ten-yard loss. When a solicitous little neighbor girl tried to sooth his hurts the dog inadvertently nipped her pretty little nose. Now the bitee is putting the bite on the biter for 5,000 bones to assuage her for the slight damage to her proboscis. To seek surcease from his woe, Art sailed through the blue skies to Florida, where ensconced in a swanky hotel in Miami Beach he enjoyed the carefree life of a billionaire. But woe is unto Art Tessler. Now all his pants have to be let out around the waist and seat. . . . Bob Bailey skied to Baton Rouge for a most enjoyable holiday with friends and relatives and to take in the football game at New Orleans. To the Old Salt, World War I vintage, that is, the Sugar Bowl game was sweet. Bob lingered on under the warm sunny skies to enjoy that good old southern hospitality, or was it Southern Comfort? . . . The past summer, to facilitate transportation to their summer home near Kenosha on the shores of Lake Michigan, the DeRoses purchased a twin engine, sleep six, 35-foot deluxe cabin cruiser. During these winter months while the Dormic is in dry dock they are busily engaged in taking courses in Operation of Powered

Crafts and Advanced Navigation at Northwestern U. Comes the spring Capt. DeRose and Mate Dorothy Rizzo (the pun was just irresistible) hope to add a Cabin Boy to their crew and sally forth on a month-long adventurous cruise exploring the beautiful Great Lakes. . . . We were deeply saddened by the sudden death Dec. 31-54 of Morris L. Ackerman. He had served in the Korean War as a Captain in the Dental Corps of the 25th Division, and about a year and a half ago resumed his practice at 1 No. Pulaski. To his family the West Side tenders its heartfelt sympathy. . . . The disastrous 4-11 fire the morning of Dec. 28-54 at the building on the southwest corner of Madison and Crawford dropped H. Andelman's office from the second floor into the basement. Considerable damage was done also to the offices of Ben Berlin and Fred Carroll. We regret very much their great misfortune, but are very happy they all so quickly located temporary offices in the neighborhood to carry on. We do hope it will not be too long before they are again back in full stride. . . . Down among the tall sheltering palms in Florida, Oscar Cyrier is toasting his epidermis a golden brown and dunking his tootsies in the salty brine. Much refreshed he should be back any day now. . . . TV Dental Clinic, on every day at 1:15 p.m., is doing a splendid job and growing in stature and viewer ratings. The past month it featured a couple of West Siders who evoked much favorable comment. Dorothy Rizzo discussed and demonstrated the importance of space main-

tainers. Mike DeRose presented a talk on Periodontia stressing the importance of replacing missing teeth. . . . Santa Claus left a new super-duper dashing Buick in George Walls' garage. Now if only some good fairy would come along and take care of those pesky monthly annoyances life would be sweet for George. . . . Our handsome debonair bachelor Bill Bingaman keeps grumbling about the rumbling in his new car. He should squawk. He ought to be married and then—oh well, let him find out the hard way. . . . In a classy new Cadillac his brother picked up in Detroit, Sam Rakow accompanied him to his home in California. . . . There was not much news floating around at the January meeting but we did glean a few quickies. Howie Rosen's tanned face reflected a pleasant vacation in Florida. George Blaha looked weak and peaked after a miserable bout with the old flu bugs. Irwin Robinson will appear on TV Dental Clinic Feb. 17. Wandering Leo Cahill has run out of interesting places to vacation so for a change is working like the rest of the common people. Irving Shaewitz urges all veterans to ascertain their Social Security status and acquaint their family with possible benefits. . . . The Alumni Association of Loyola University School of Dentistry will have Headquarters Room 512-A during the Midwinter Meeting. Drop in and meet your friends! Also the Association will hold a cocktail party in the West Ballroom on February 8, 4:30 to 6:30 p.m. . . . See you at the Conrad Hilton Hotel, Feb. 6 through 9.

Be there! — *Adolph F. Stark, Assistant Branch Correspondent.*

NORTHWEST SIDE

Our January meeting really showed the Florida influence in our current mode of life. Our president and president-elect both with their families soaking up all the sunshine. So, our secretary, Folmer Nymark, took over the reins for the evening. And a good job he did. Business rolled along smoothly, and there were no heckling parliamentarians. . . . Midwinter Meeting time, and a call from the publicity chairman for the Alumni Association of Loyola, C.C.D.S. He asks that our membership be alerted to two colossal events given by the alumni of C.C.D.S.—(1) that there will be a headquarters room open during the length of the Midwinter Meeting, 512-A; please stop and register—(2) on Tuesday of the meeting, 4:30 to 6:30, there will be a cocktail party in the West Ballroom on the third floor of the Hilton. A Casbah (cash bar to you) will serve as the lubricating agent. . . Picked up a news item in the *Masonic Chronicler*. Ed Rosenberg became a grandpa for the second time. Congratulations, Ed! Bring that smile down to one of the branch meetings one of these evenings. . . . Card from Cas Rogalski came in the mail on the morning of the meeting, so his absence was no news that evening. . . . LaMar Harris came in with a report about a Christmas gift that arrived at Jerry Gold's door, a fire-red Ford. But he didn't ex-

plain where, when, how or what. Guess that we will have to ask Jerry. . . . Comes a flyer from the Chicago Dental Assistants Association inviting the membership of the Chicago Dental Society to its Midwinter dinner-dance at the Columbia Yacht Club on Sunday, February 6; \$5.00 per person, with dinner at 8:00. . . . We take sad note of the fact that the Branch has lost two of its old timers in the passing of Art Peterson and George Ulvestad. To those of us who knew them, they were part of the history and background of the Northwest Side Branch. To the families of these respected men, the Branch offers its deepest sympathies. . . . And that's that until after the Midwinter. The news available at that time should make for a good long column. Look for us then.—*Ben Davidson, Branch Correspondent.*

KENWOOD-HYDE PARK

Loyola University School of Dentistry, known as the Chicago College of Dental Surgery, Alumni Association will have its headquarters in room 512A during the Midwinter Meeting and on the 8th of Feb. from 4:30 to 6:30 they are going to meet in the West Ballroom for some liquid refreshment and some social talking. . . . This isn't news before it happens, although it was given to me before, 6 days. Dr. Appleman and Dr. Dundon took a little trip to Decatur to speak before the Decatur Dental meeting. Dr. Appleman was the main speaker while Dr. Dundon spoke about

AGENTS FOR THE DISABILITY AND HOSPITAL PLANS OF THE CHICAGO DENTAL SOCIETY

Is anything "Unbreakable"?

Actually, NO! But one of the hardest things to break is FAITH — faith in an ideal, a policy, a hero . . . yes, even faith in a product.

And that's why the dental profession for over 60 years has looked to Cook-Waite for the finest in dental products. The profession knows, from experience, that they can depend upon the research and manufacturing "know-how" of Cook-Waite to bring them products which are unsurpassed.

We appreciate this faith . . . and it's our policy — yes, our duty — to see to it that this professional faith is justified.

COOK-WAITE
Laboratories, Inc.

the Midwinter Meeting and the program that was planned. . . . We are very happy to say that Dr. Carlton is getting around very well and was out to the meeting. His son Tom was home over the holidays. Tom flew in on a chartered plane and that was just after the plane accident in the east; we hope that hearing of the accident didn't spoil your trip. Mrs. Carlton wants Jesse to slow down, but it seems that the only way to slow him is to trip him. . . . Here is the new address of Seymour Yale, just promoted to Lt. Com., Dental Technical School, USMTC, Bainbridge, Md. We are in the habit of hearing that those who were teachers get frontline jobs, but Seymour has been lucky enough to get a teaching job in the service and has about one year more to go before he becomes Doctor again. Don't worry, Seymour, that time will go very fast and before you know it you will be back in South Shore again. . . . Bob Wells doesn't like our nice Chicago weather so he has hit the trail for the sunny shores of that place near where the ADA had a meeting, maybe he is trying to remember about the meeting so went back there????

. . . Now to get this into the mail, but fast.—Warren Lutton, Branch Correspondent.

NORTH SUBURBAN

OOoooWWwwwootch!!! Scuse it—Please? Been putting off writing this column for lack of news, but shooddadidit-sooner—OH—my! Went ice skatin' last night for the first time, well, since age 17. Y'know, a frozen pond is a wondrous purty thing. The ice lies there, not fighting or arguing with anyone—extends to the banks, and behaves itself UNTIL we make the mistake of attaching a blade of steel to each shoe, and venture upon it in the bold manner of a teenager. The durn stuff suddenly acquires steep grades and an undulating motion most unpredictable. We can prove it—"OOooo my aching ———." On the subject of more or less cracking things up, we learned that Hal Schelhas bent the ash tray in his Chrysler convertible and was forced to trade it in on a 1955 Caddy Coupe DeVille—things is mighty tough these days. . . . They say Grant MacLean is

busy these days getting in shape to carry that extra gold stripe on his sleeve, bucking for Captain—Navy Reserve, that is. . . . Golly, more people are doing more things—Bill “I’m also an engineer” Bradford has been stewing around for the past two years on plans and procedures for his new home. During the last few months things seem to have come to a head, and the new shack is well on its way with Bill pushing a monstrous tractor around like a veteran. . . . Alvin Altman missed our two-day winter during the holidays when he took a quick once-over in Florida . . . as did Bill Murray. Bill cautioned his wife against leaving raincoats at home, “Even though we ARE going to California.” She packed two raincoats for the trip, and she and Bill went to see the Rose Bowl Game. Unfortunately, they believed the Chamber of Commerce and left their raincoats in suitcase while they enjoyed the game in a California—“mist.” . . . Ed Ryan, ‘twas good to see you, Ed, at the Evanston Association New Year party—spent a week on his farm near Dixon. . . . Did you catch O. B. Kibler on T.V. the other day? The Dental Association program has an estimated million viewers, and has received up to five hundred letters in one month—maybe—should have a sponsor——? . . . Pinky Stine has been in Peoria, business. . . . Bill Murray again—Bill has a really grand guy associated with him now, Glenn Jackson, a graduate of Northwestern, but more particularly a native of Nebraska—Hi, Podner, Welcome. . . . M. J. Weissmiller has removed his office from Central Street, Evanston, to the new Medical Center on Green Bay Road in Wilmette. . . . Charlie Freeman is shopping, fellows, for a new hat. Charlie visited Cooley’s last Wednesday for lunch, and unintentionally exchanged hats with none other than Dave Lyman, pharmacist and friend. . . . Sorry we don’t have all the specifications for this latest model, but Greg Padovani can be addressed, “—and family,” since January 8. . . . Remember Bob Fleming? Bob answered Uncle Sam’s call to help the Navy—along? Recent word has it that

Bob has been released from service, has bought a home and set up practice in Washington, D. C.—Periodontia. . . . The Evanston Association of Dentists is now operating under its new officers: Grant MacLean, President; Arthur Freeman, Pres.-Elect; Fred Verink, Vice Pres.; O. Bruce Davy, Jr., Secretary-Treasurer; and Charles Baker, Librarian. Meetings every Monday noon at the Orrington Hotel. Which reminds us that the Evanston Association was greatly honored to have Dr. Edgar D. Coolidge as speaker for the January 10 meeting on the subject, “The price of rum in Jamaica and of Banana Cordial in Cuba.” Proper explanation would reveal that our good friend procured these items for his sons whom he was able to visit enroute and return from the ADA Convention. Doctor Ed spoke of his many delightful experiences on the trip and particularly his pleasure in his meetings with the periodontists. . . . We heard of Wilson Fisher’s daughter’s engagement . . . and that Chuck Mercier moved his home from New England Village to a beauty in the region of the Indian Hill Estates. . . . John Heller—this is the best vacation we’ve yet heard of—is going round the world—will be back. . . . Had a phone call the other day, and UNFORTUNATELY—’spose we gotta do it. The call was from none other than Wittle Wo, Pied Typer of Tripe ‘n stuff from Engulwude. He asked if we’d announce—Loyola University Alumnus invited to visit room 512-A, Alumni Headquarters during the Midwinter Meeting at the Conrad Hilton Hotel—bring friends. Also said something about refreshments available, and that some sort of scrabble match was mentioned for the West Ballroom on February 8 (4:30 to 6:30) if you can pull yourself away in time. It seems something was mentioned about COCK-TAILS too. Gee, we hope this is all clear. Someone might want to know. In closing, a feller by the name of W. James said, “There is no more miserable human being than one in whom nothing is habitual but indecision.”—*F. S. Verink, Branch Correspondent.*

TRUBYTE BIOFORM® TEETH

THE FIRST VACUUM FIRED PORCELAIN TEETH

*...Reproduce the Lifelike and Beautiful Qualities
of Healthy Natural Teeth*

and

TRUBYTE® DENTURE VENEERS

*...Reproduce the Natural Color of the Living Tissue
and the Anatomy of Natural Gum Contours*

Never before has it been possible to produce so lifelike, so beautiful, so natural looking dentures—and by such simple and easy to use methods!

Now, for the first time, you can offer *all your denture patients* a completely new concept of denture service—the modern esthetic denture with faithful reproduction of anatomy and amazingly lifelike simulation of natural tissue color, plus the inherent advantages of the beautiful forms, natural shades and greater strength of Trubyte Bioform Teeth.

Ask your Trubyte Dealer or Dental Laboratory to show you the new Trubyte Bioform Veneer Denture and make your own comparison test!

THE DENTISTS' SUPPLY COMPANY OF N.Y.

York, Pennsylvania

DEEONE

SOFT—type "A" inlay casting gold, 65 Brinell — used where a soft gold is indicated, especially gingival and one surface inlays.

DEEFOUR

EXTRA HARD — A superior gold for cast partials, bridge abutments, Chayes, bite raising cases, thin castings and other uses where extra hardness up to 249 Brinell is desirable.

DEETWO

MEDIUM — type "B" inlay casting gold 100 to 105 Brinell—the right alloy for average inlays and fixed bridge work subject to light stresses.

DEESIX

HARD—type "C" inlay casting gold 128 to 189 Brinell—heat treats readily — excellent for 3/4 crowns and cast crowns, Carmichaels, M.O.D., fixed bridges, etc.

You're "in clover" when you use
DEE GOLD

Your work is made easier and results are bound to be better, because each DEE GOLD composition has the special properties that ideally suit it for the particular uses for which it was developed—also, because every pennyweight of each composition is always the same. The "DEE GOLD FOLDER" lists the different alloys with their physical properties and recommended uses. A copy is yours for the asking.
